THE OPTOMETRISTS BOARD OF HONG KONG

Manual for Continuing Professional Development Scheme for Registered Optometrists

1 INTRODUCTION

- 1.1 As primary care practitioners, optometrists have a duty to their patients to keep abreast of latest developments in the profession and the discipline. Specifically, section 1.3 of Part III of the Code of Practice for Registered Optometrists stipulates that *an optometrist must maintain at all times the highest standard of professional competence and skill through undertaking continuing professional development (“CPD”) activities and acquiring the necessary CPD points in accordance with the Manual for CPD Scheme for registered optometrists (which may be revised from time to time by the Board).*
- 1.2 The main purpose of implementing continuing professional development (CPD) scheme is to encourage optometrists to commit to a life-long process of continuing professional learning through education and training. CPD will enhance professional strength by allowing optometrists to keep pace with the rapid advances in optometric technology in terms of knowledge, skills and practical experience. It will also ensure that optometrists are competent in providing quality service in a multi-disciplinary health-care system.
- 1.3 The CPD scheme of the Board has been running on a voluntary basis since 2004. ~~Keeping in mind that mandatory participation in the CPD scheme is a long-term goal in enhancing standard and credibility of registrants and in the light of the experience gained in the past years, the Board considers it an opportune time to implement a mandatory scheme.~~ Following the endorsement of the Allied Health Professions Council (“the Council”) and the Optometrists Board, the CPD scheme has been implemented since 1 July 2021.
- 1.4 Pursuant to section 16(2) of the Allied Health Professions Ordinance, Cap. 359, a practising certificate will be issued to persons only when a person has fulfilled the attainment of the Mandatory Continuing Professional Development Scheme.
- 1.5 Upon conclusion of the current cycle, the Practising Certificate-linked Continuing Professional Development (PC-linked CPD) Scheme shall take effect immediately, with the first PC-linked CPD cycle running from 1 July 2026 to 30 June 2029, in accordance with the statutory requirements under the Allied Health Professions Ordinance.

2 CPD CYCLE

- 2.1 ~~A cycle of CPD assessment will span three calendar years. Following the completion of the last voluntary cycle on 30 June 2021, the mandatory scheme runs on 3-year~~

~~cycles commencing from 1 July of the first year and ending on 30 June of the fourth year. The first mandatory cycle begins on 1 July 2021 and ends on 30 June 2024. Each CPD cycle spans three years, commencing from 1 July (or the commencement date of his/her practising certificate) of the first year and ending on 30 June of the fourth year, aligning with the validity period of practicing.~~

- 2.2 ~~Registrants entering into the profession after the start of any 3-year cycle will be allowed to comply with the mandatory requirement on a pro-rata basis. The years away from the end of the prevailing 3-year cycle will be rounded down to the nearest integer. Since the validity period of practising certificates issued on or after 25 July 2025 has been changed from 1 year to 3 years, registered optometrists who have obtained 3-year practising certificates within the registration period from 25 July 2025 to 30 June 2026 will have their CPD cycle being concluded on 30 June 2028. For registered optometrists who obtain their 3-year practising certificate commencing on 1 July 2026, their CPD cycle will conclude on 30 June 2029.~~
- 2.3 ~~If the first cycle of individual registrants is shorter than 3 years, normal capping on individual CPD categories will still apply.~~

3 ENROLLMENT

- 3.1 All registered optometrists are automatically included in the mandatory CPD scheme. No prior enrollment to the scheme is required.

4 CPD POINT REQUIREMENTS

- 4.1 All registered optometrists are required to attain 30 CPD points in each 3-year cycle, regardless of which parts of the Register the optometrists' names are in and whether the optometrists reside in Hong Kong or overseas.
- 4.2 CPD points accumulated in excess of the requirement for one cycle cannot be carried forward to the next cycle.
- 4.3 To allow greater flexibility to cater for individual professional, educational and development needs, no minimum annual requirement will be set but registrants are strongly encouraged to undertake CPD activities throughout the 3-year cycle.
- 4.4 When an optometrist is registered after the commencement of the prevailing CPD cycle, with the shortest period of 2 to 2.5 years validity of practising certificate will be allowed to attain 20 CPD points in that CPD cycle. The following table outlines the pro-rata requirements:

Group	End Date of Practising Certificate	Start Date of Practising Certificate	CPD Points required by end date of Practising Certificate	Approximate Duration for obtaining CPD points
A	30.6.2028	Between 25.7.2025 and 30.6.2026	20 Points	2 Years
B1	30.6.2029	Between 1.7.2026 and 31.12.2026	30 Points	> 2.5 Years
B2	30.6.2029	Between 1.1.2027 and 30.6.2027	20 Points	2.0 – 2.5 Years
C1	30.6.2030	Between 1.7.2027 and 31.12.2027	30 Points	> 2.5 Years
C2	30.6.2030	Between 1.1.2028 and 30.6.2028	20 Points	2.0 – 2.5 Years

5 **SCOPE OF CPD ACTIVITIES**

- 5.1 CPD activities can be organized in the form of a conference, workshop, seminar, lecture, demonstration, talk, practical session or a short or tertiary course of direct relevance to the practice of optometry.
- 5.2 Apart from lecture-based activities, optometrists can also acquire CPD points through publication of an article or paper in peer-reviewed journals. Self-study in the form of online continuing education courses or periodic reading of optometry / vision-sciences-related journals pre-approved by the Board will also attract CPD points. Didactic post-graduate studies in academic institution leading to higher qualifications can be credit-earning upon individual assessment.
- 5.3 In recognition of the trend of e-learning, the ~~annual~~ ceiling of CPD points for self-study is uplifted to **5 15** CPD points **per cycle**.

6 **ALLOCATION OF CPD POINTS**

- 6.1 There are five major categories of CPD activities. CPD activities eligible for accreditation are further classified into **core** and **non-core** activities. Core CPD activities shall have a higher rating of CPD points as compared with non-core ones. Please refer to **Appendix I** for details of the CPD points allocation for each kind of activity and its corresponding constraints.
- 6.2 For lecture-based activities, the time allocated for examinations / tests will not attract any CPD points. As for organizers of CPD activities, no certificate of attendance shall be issued to attendees who are late or who leave before the end of the activities for over 15 minutes.

7 ACCREDITATION OF CPD ACTIVITIES

- 7.1 The Board Education Committee is the Optometrists Board's delegated authority for accrediting Programme Providers and individual CPD activities other than those organized by Accredited Programme Providers.

~~8~~ REPORTING SYSTEM

- ~~8.1 An honour system will be adopted. Registrants will be required to declare their CPD attainment every three years alongside the renewal of their annual practising certificate.~~

~~9~~ 8 RECORD OF PARTICIPATION

- ~~9.1~~ 8.1 Optometrists should keep proper record of their own CPD attainment, together with relevant document evidence, such as certificate of attendance, for a minimum period of ~~six~~ **five** years. Such record has to be submitted to the Board upon request. Optometrists must respond to call for returns from the Board, and submit all returns with required proof within the defined period of time.
- ~~9.2~~ 8.2 Optometrists are encouraged to log down their CPD activities of all categories throughout the CPD cycle to facilitate their making of accurate declaration on CPD attainment at the end of the cycle. Registrants may make use of the CPD record form (at **Appendix II Form OP IIa** and **Form OP IIb**) for the purpose.

~~10~~ 9 AUDIT

- ~~10.1~~ 9.1 Audit will be conducted for the purpose of verification.
- ~~10.2~~ 9.2 The Secretary of the Board may randomly select some of the registrants for audit check on declaration on attainment made. The registrants selected will be requested to submit documentary evidence for verification purpose. It is the responsibility of an optometrist to produce the evidence when requested by the Board.
- ~~10.3~~ 9.3 Optometrists failing to submit return on time will be regarded as CPD non-compliant.

~~11~~ 10 EXEMPTION

~~11.1 *Acute / Prolonged Illness and Permanent Disability*~~

- ~~(i) An optometrist who is found at the end of any CPD cycle to have fallen behind CPD because of acute / prolonged illness or permanent disability can be exempted from the CPD requirements, on condition that he is not in active~~

~~practice and his condition is certified with medical advice.~~

- ~~(ii) An illness can be accepted as “prolonged illness” provided a sick leave of at least 6 months has been formally granted within a 3-year cycle (pro-rata count may apply in case the cycle is less than 3 years).~~
- ~~(iii) Partial exemption will be considered on a case by case pro-rata basis depending on the extent of the illness and its impact on practice. The guiding principle of exemption is that when an optometrist is not in active practice because of the illness, CPD requirement of that total period of “not in active practice” will be exempted for CPD in that cycle, while pro-rata count of CPD requirement will be applied to the period(s) during which the optometrists are in active practice.~~

~~11.2~~ *Cessation of Active Service*

- ~~(i) The Board will consider application for CPD exemption from an optometrist only if he has formally submitted a written declaration to the Board that he has ceased active practice in and outside Hong Kong and the reason for such cessation.~~
- ~~(ii) An optometrist who has ceased active practice leading to removal of his name from the Register subsequently wishes to resume active practice will be required to submit an application for restoration of his name into the Register. Applicants are required to observe the requirements, which would be reviewed from time to time, on undertaking CPD for the purpose of restoration.~~

10.1 A registrant could be certified to have a medical condition or other circumstances which restrict the registrant from discharging the optometrists’ duties, which the Board considers as acceptable reasons for exemptions from CPD (e.g. prolonged illness, and permanent disability). A registrant should submit an exemption application to the Board for consideration on a case-by-case basis.

~~12~~ **11 NON-COMPLIANCE**

~~12.1~~ 11.1 For cases of non-compliance as declared by the registrants or discovered by the Secretary of the Board during audit check, the Board Education Committee will conduct an assessment.

~~12.2~~ 11.2 *Non-compliance That is Remediable*

- (i) ~~An optometrist~~ A registrant must:
 - ~~(a) have achieved not less than two-thirds of the required number of points for a cycle; or~~
 - ~~(b) be certified to have suffered from a medical conditions which the Board considers as a reasonable cause for the CPD non-compliance.~~

The Board may, at its discretion, accept other conditions on reasonable grounds.

- (ii) ~~The optometrist will be required to engage in a remedial programme for the deficiency, which must be finished within the specified timeframe, normally within 12 months from the end of the cycle concerned.~~ The registrant will be required to engage in a remedial programme for the deficiency, which must be finished by the end of the relevant next cycle.
- (iii) The next cycle shall follow immediately after the previous cycle without any break, i.e. the ~~optometrist~~ registrant will have to undergo normal and remedial CPD at the same time.
- (iv) ~~An optometrist~~ The registrant who has failed to make remedy prescribed by the Board for the deficiency without acceptable reasons could be regarded as a case of non-compliance that is not remediable.

~~12.3~~ 11.3 Non-compliance That Is Not Remediable

For ~~optometrists~~ registrants who have obtained less than two-thirds of the required number of points for a cycle without acceptable reasons, ~~the case may be regarded by the Board as a possible case of professional misconduct. Such cases are to be filed to the Preliminary Investigation Committee of the Optometrists Board, and will be handled in accordance with the prevailing disciplinary procedures.~~ no practicing certificates will be issued.

12 REMEDIAL MECHANISM

- 12.1 If a registrant achieves at least two-thirds of the required CPD points for a cycle but fails to attain the full CPD requirement, they are required to obtain the remaining points in the subsequent cycle. For various remediable scenarios and the corresponding additional requirements, please refer to the table as below:-
- 12.2 For registrants from Groups B1 and C1, the required CPD attainment is 30 points per cycle, of which at least two-thirds (i.e. 20 points) must be attained by the end of the cycle.

CPD points attained in the 1 st Year	CPD points attained in the 2 nd Year	CPD points attained in the 3 rd Year	Additional CPD points required in the next cycle*
10	10	5	5 (remaining pts)
15	5	0	10 (remaining pts)
20	0	0	10 (remaining pts)

- 12.3 For registrants from Groups A, B2 and C2, the required CPD attainment is 20 points per cycle, of which at least two-thirds (i.e. 13.5 points) must be attained by the end of the cycle.

CPD points attained in the 1 st Year	CPD points attained in the 2 nd Year	CPD points attained in the 3 rd Year	Additional CPD points required in the next cycle*
8	5	1.5	5.5 (remaining pts)
5	5	3.5	6.5 (remaining pts)
14	0	0	6 (remaining pts)

* The CPD points required in the subsequent cycle will include any additional and remaining points carried over from the previous cycle, in addition to the credit points required for the new cycle. CPD credit points attained as additional and remaining points for deficiencies in the remedial programme shall not be counted toward the upcoming cycle.

- 12.4 Registrants participating in a remedial programme shall be required to satisfy their remaining CPD point obligation exclusively through engagement in Category (1) CPD activities. Such remedial programme shall be completed within the immediate subsequent CPD cycle, and such cycle shall represent the final and sole opportunity for the registrant to remedy the deficiency. Under no circumstances shall further extension, deferral, or additional opportunity be granted for the completion of the remedial obligation. A registered optometrist who has failed, without acceptable reasons, to make the remedy prescribed by the Board under the remediable mechanism could be regarded as a case of non-compliance that is not remediable.

13 FALSE REPORTING AND LEGAL CONSEQUENCES

- 13.1 Registrants are advised that submission of false or misleading information in relation to CPD attainment or remedial compliance constitutes a serious breach of professional conduct. False reporting may constitute a criminal offence under applicable legislation and may expose the registrant to criminal liability, in addition to professional disciplinary action by the Board. Registrants are required to ensure the accuracy and truthfulness of all CPD documentation and reports submitted to the Board.

14 APPEAL

- 14.1 Any appeal must be lodged in writing to the OP Board.

~~13-1~~ 15 LIST OF PRE-APPROVED PROGRAMMES

- ~~13-1~~ 15.1 The list of pre-approved CPD programmes is as follows –

- (i) accredited / approved programmes of Council on Optometric Practitioner Education (COPE);
- (ii) accredited/ approved Continuing Education and Training (CET)/ Continuing Professional Development (CPD) programmes of General Optical Council

(GOC); and

- (iii) international conferences held by the American Optometric Association, the American Academy of Optometry, Canadian Optometric Association, and annual conference of the Optometrists Association of Australia; biennial conference of the College of Optometrists, UK, annual conference of the New Zealand Association of Optometrists, and that held by the New Zealand College of Optometrists, Asia Pacific Optometric Congress, the Hong Kong International Optometric Symposium and the Asia Cornea and Contact Lens Conference, would be accepted / accredited.

~~14~~ **16 LIST OF PRE-APPROVED PROGRAMME PROVIDERS**

~~14.1~~ **16.1** The following local organizations are at present pre-approved programme providers –

- (i) The Hong Kong Polytechnic University;
- (ii) The Hong Kong Association of Private Practice Optometrists;
- (iii) The Hong Kong Optometric Association; ~~and~~
- (iv) The Hong Kong Society of Professional Optometrists; and
- (v) **Hong Kong Cornea and Contact Lens Society.**

~~15~~ **17 CODE OF PROGRAMMES**

~~15.1~~ **17.1** To facilitate the administration of CPD activities, programmes should be assigned with a code (a total of 8 characters/digits) by pre-approved programme providers (for their own activities) or the Education Committee of the Board (for activities not pre-approved or for activities involving multiple organizers). The guidelines for assigning CPD code is at **Appendix III**.

Allocation of CPD points for various categories of activities

No.	Category	Description	Allocation of CPD Points	Maximum CPD points to be allocated per year cycle
1	Receptive participation	- Certified attendance in any CPD activity as accredited by the Board : - Activities organized by the 4 5 Accredited Programme Providers¹ - Activities as validated by the Board on application by institutions/individual optometrists	- For core activities²: 1 CPD point per hour - For non-core activities³: 0.5 CPD point per hour	- Core activities: - Nil - Non-core activities: 5 15 CPD points
2	Active participation	Active participation as speaker, panelist, presenter, trainer in any accredited CPD activity.	1 CPD point per 15 minutes of presentation.	5 15 CPD points
3	Post-graduate studies	<u>Didactic</u> post-graduate studies in academic institutions leading to higher qualifications.	- For core activities: 1 CPD point per hour - For non-core activities : 0.5 CPD point per hour	- Core activities: - Nil - Non-core activities: 5 15 CPD points
4	Self-study	- Self-study in the form of online continuing education courses at Appendix Ia. - Periodic reading of optometry/ vision-sciences-related journals at Appendix Ib.	1 CPD point for the completion of each online course plus quiz. 1 CPD point per year.	5 15 CPD points (whereas a ceiling of 2 CPD points for periodic reading)
5	Publication	Publication in peer-reviewed journals related to optometry / vision-sciences.	- First / last/ corresponding author : 5 CPD points per publication - Other author : 3 CPD points per publication	5 15 CPD points

¹ The ~~4~~ ~~5~~ Accredited Programme Providers (APPs) are: (1) The Hong Kong Polytechnic University (PolyU); (2) The Hong Kong Association of Private Practice Optometrists (HKAPPO); (3) The Hong Kong Optometric Association (HKOA); ~~and~~ (4) The Hong Kong Society of Professional Optometrists (HKSPPO) **and** (5) **Hong Kong Cornea and Contact Lens Society**.

² Core activities are activities of direct relevance to practice of Optometry.

³ Non-core activities are activities not directly related but contributed to the understanding or expansion of optometry knowledge and skills, including subjects on other health care professions and information technology. *Activities on personal and motivational training or political meetings will not be accredited.*

Guidelines for Assigning of CPD Code

To facilitate the administration of CPD activities, each programme should be assigned with a specific and unique CPD code (a total of 8 characters/digits) by pre-approved programme providers (for their own activities) or the Education Committee of the Board (for activities organized by non-APPs / activities involving multiple organizers). Each character/digit in the CPD code carries the following meaning –

Character/ Digit	Meaning	Keys
1 st to 4 th	Represents the organizers	POLY = Activities organised by The Hong Kong Polytechnic University APPO = Activities organised by The Hong Kong Association of Private Practice Optometrists HKOA = Activities organised by The Hong Kong Optometric Association SPO_ = Activities organised by The Hong Kong Society of Professional Optometrists CCLS = Activities organised by Hong Kong Cornea and Contact Lens Society MULT = Activities jointly organised by two or more APPs/ jointly organised by APPs and non-APPs NAPP = Activities organised by one or more non-APPs and validated by the Board
5 th & 6 th	Represents the year cycle in which the programme is conducted	Examples: 246 = 1 July 20246 to 30 June 20227 227 = 1 July 20227 to 30 June 20238 238 = 1 July 20238 to 30 June 20249
7 th & 8 th	Represents the serial number of programme assigned by the APPs / the Board	01, 02, 03 ... to be assigned by the APPs for own activities / to be assigned by the Board when activities organised by non-APPs are validated / when activities involve multiple organizers
